

‘Something out of Nothing’

From Sally Lonn

In 2019, our club had a trash to treasure huge bag of junk. The creations were displayed and voted on by our club members. There were whole room boxes created, playgrounds, indoor and outdoor scenes, everyone different. I am sending you mine, which was inspired by our visit to the Croatia Coast and the towns of Split and Dubrovnik as well as others. See my toilet paper roll boats, my attempt at a fountain, flower and lavender carts, as well as gelato stand and a trash can and bench. You might recognize the items, mostly in one quarter scale. We had hundreds of pieces and the rules are that you need to use some part of all of them, and we had a sheet to record how we used the parts. we could add a piece of foam core, (limited in size), a base, and paint....it was a whole lot of fun, and this is the first prize winner!!! Thanks for looking,

Sally Lonn, Small World Miniatures of Phoenix
