

# **‘Something out of Nothing’**

## **From Elaine Levine**

One of my clubmates walked into a store that was going out of business and spotted some L-shaped plastic "thingies". She asked to buy them and was told "take them!" So she did and handed them out to the club. I used mine to make a summer scene and am planning on doing the other seasons one of these days.

I used a roll of life size border paper and wrapped it all the way around the back. I then used grass paper on the bottom part to make a lawn and added a bunch of stuff I had lying around in my stash - table, chairs, food, flip-flops, etc. I thought about adding flowers, but liked the dandelions better.
