

“My Favorite Things”

Specially revised for our Kit Month by Abby Carlson in collaboration with her daughter Katy.
(You are going to have to sing it out loud...it is really fun that way!)

(Raindrops on roses)

Kits for small dishes, I must paint the edges
Plants for the front yard, and kits for some hedges.
Silver white fabric to turn into a gown,
These are a few of the kits that I've found.

(when the dog barks, when the bee stings)

Build a bookcase, mold some cupcakes
Dress a lovely doll
And when I dig deeper down into my stash -
I think that I have them all.

(raindrops)

Five dollar kits from convention, I have some
Houses and blouses and some paper flotsam
Wiring and painting I have kits galore
And even a kit for a house I "A-Door"

Perfume and pictures on trays that look pretty
Containers of flowers with dirt that looks gritty.
Green bendy wires that turn into vines
These are a few of my favorite finds.

(When the dog barks)

I have new kits, I have old kits,
So many kits undone.
I have to get busy to make all my kits
Now this is what I call fun.
