

Swimming Area Clothes Line

Cat Winger for Camp Makamini

Print out the swimsuits, towels and Tee shirt graphic. The quarter-inch scale print size is 5.33 wide by 2.27 wide.

Cut apart the towels, and tee shirts, and swimsuits, so that each has a matching back piece. There are three blanks so that you can color your own if you like.

Carefully cut out the towels and match them back -to-back and glue them together.

Cut out each swimsuit and glue it back-to-back with the matching color rectangle. Cut out the swimsuit.

Use the same method for the tee shirt.

I scrunched one and folded one towel to look natural on the line.

I used white button hole thread for the clothesline but any white thread will do. Arrange the towels and swimsuits on the line and glue them to the line. String the line between 2 trees, or 2 poles or wherever you like
