

## 1/4" Scale Plastic Furniture

Ideas from: J. Hermes, Barbara Happ and The "Min-u-ettes" of Glendale, California

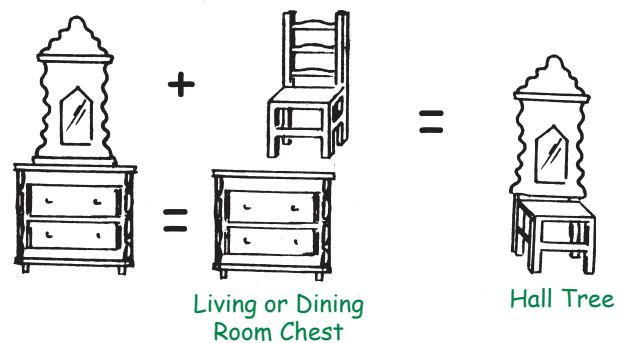

Many miniaturists use the plastic 1/4" furniture sets that are readily available. These pieces can be re-made into a variety of other furniture and accessory items. The diagrams provided were developed years ago. Since that time, the molds have been redone by the company that produces the furniture and some of the items have been changed, making some of these changes impossible. For those of you who own the older sets, enjoy these suggestions. Also enjoy coming up with your own new ideas. Be creative.

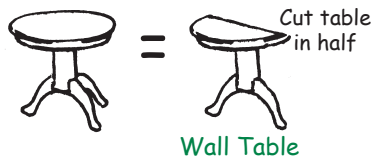

### Wall Clock and Side Table

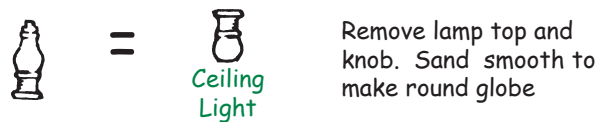

### Chest and Hall Tree

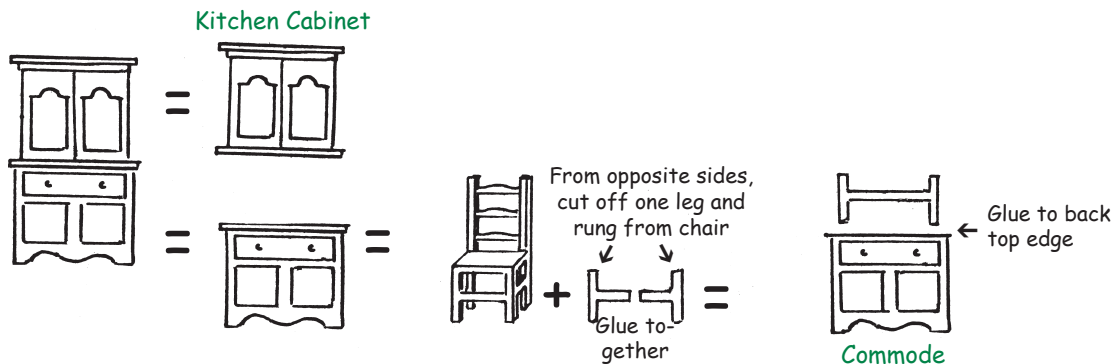

### Wall Table

### Ceiling Light

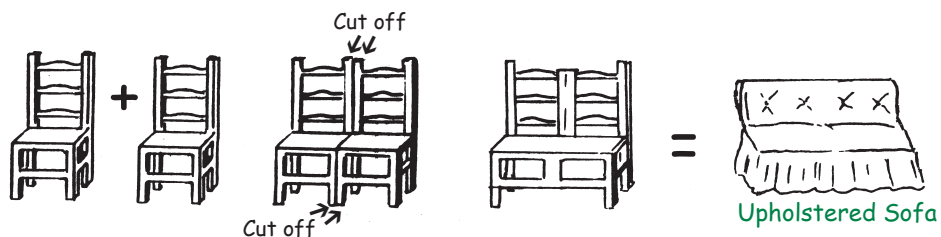

### Kitchen Cabinet and Commode
