

NAME Day 2015  
**“WINDOW SHOPPING”**

Designed by the NAME Day 2015 Committee  
 QUESTIONS???? Send to: Barbara Thornton-Hill, [bathca@gmail.com](mailto:bathca@gmail.com), 530-265-5704

**Tools:** scissors, sandpaper/emery boards, gluing jig, ruler, pencil,  
**Supplies:** Wood Glue and/or Turbo Tacky or other glue of choice

**Items needed in Addition to the Kit:**

1. **Fabric or Wallpaper:** 2 pieces that coordinate well.  
 For 1" you will need 2 pieces about 8" x 3"  
 For 1/2" you will need 2 pieces about 5-1/2" x 2"  
 For 1/4" you will need 2 pieces about 4" x 2"
2. **Bunka, lace or other trims:** for the edges of your shade 16" long for 1"; 11" long for 1/2"; 6-1/2" long for 1/4"
3. **Siding for front: (see below)**
4. **A Picture Frame: 8 x 10**
5. **Wallpaper, paint, stain or whatever you want to finish your interior.**

**SIDING & MEASUREMENTS:**

**1" With Frame (Clapboard Siding)**

**1" Without Frame (Clapboard Siding)**

**Clapboard:** glue pieces of clapboard siding to the front and paint the color of your choice.

Measurements for Clapboard Siding:

1" **Sides:** 1/16 x 1-1/32 x 5-7/84 - 2 pcs

**Top/Bottom:** 1/16 x 1-1/32 x 10 - 2 pcs

1/2" **Sides:** 1/16 x 13/16 x 3-1/2 - 2 pcs

**Top/Bottom:** 1/16 x 3/4 x 7 - 2 pcs

1/4" **Sides:** 1/32 x 9/16 x 2-5/8 - 2 pcs

**Top/Bottom:** 1/32 x 7/16 x 5 - 2 pcs

**Fits in an 8" x 10" frame and is 3" deep.** Siding and 8x10 frame not included. Finishing ideas/materials at the discretion of the cutter. Watch the Gazette for ideas on finishing your window.

**1/2" With Frame (Kleenex stucco siding)**

**1/2" Without Frame (Kleenex stucco siding)**

**Stucco:** There is a powder called "Roll-A-Tex" (found in hardware or paint stores) that can be mixed with any color of paint and spread on for a stucco appearance.

Another Stucco technique is to separate a Kleenex into 1 ply then tear into 1/2 to 2 inch pieces. Lay on the wood and paint with any acrylic or house paint. The Kleenex pieces will bunch up in the paint to create a nice textured effect.

**Fits in a 5" x 7" frame and is 1-3/4" deep.** Siding and 5x7 frame not included. Finishing ideas/materials at discretion of the cutter. Watch the Gazette for ideas on finishing your window.

**1/4" With Frame (brick siding)**

**1/4" Without Frame (brick siding)**

**Bricks:** there are many available from mini stores, online, **OR** you can make bricks and paint them from paper clay. In the quarter inch sample I used plastic sheets of bricks which can be obtained from miniature stores, hobby stores, online at MicroMark.com or other suppliers. I used a tan brick sheet then lightly sponged on reds, whites and tans leaving the tan lines showing as the grout. Very easy in quarter or half inch. Moderately easy in 1".

**Fits in a 3-1/2" x 5" frame and is 1" deep.** Siding and 3-1/2x5 frame not included. Finishing ideas/ materials at the discretion of the cutter. Watch the Gazette for ideas on finishing your window.

### **MORE SIDING IDEAS**

Before adding your siding, slip the plastic into the opening at the top of your window frame.

Now, add a siding and paint or stain.

Try one of these sidings:

**Board n Batten:** glue on wood strips vertically:

1" - 1/16" x 1/8" about 3/4" apart

1/2" - 3/64" x 3/32" about 3/8" apart

1/4" - 1/32" x 1/16" about 3/16" apart

**Stones:** use torn pieces of egg cartons. Glue them to the surface, then paint them all a solid gray, white or tan which will be the color of the cement between the stones eventually. Then dry brush with a variety of shades of grays, tans, black & white to look like stone finish (add in a slight touch of green or yellow for a nice extra touch)

**OR** find a stone siding for purchase in a hobby store, mini store or online **OR** make a stone finish from paper clay
