

January Thaw A Melted Snowman

*By the Workshop of Enchanted Elves Ipswich, MA
Favor from the 1989 "Door for All Seasons" Houseparty, Minneapolis, MN*

All that's needed to create this melted snowman is liquid resin, a plastic top hat, a strip of knit fabric for a scarf, twigs for arms, a carrot made of Fimo and railroad gravel for features. Pour a puddle of liquid resin about 1-1/2" x 2-1/2" on a piece of plastic wrap. Arrange, hat, scarf, twigs, carrot and coal in resin. Let dry.
