

## Bittersweet

By Twilla McKee

### SUPPLIES

- Twigs with tendrils -  
(the roots of a dead plant)
- Raffia -  
(narrow strip cut from any color)
- Orange fruit - (model train scale)
- Tacky Glue

Wash the roots and let them dry. Break off several pieces and bunch them together to form a bouquet. Tie them with raffia and make a bow.

Spread glue around the end of one of the "twigs." Sprinkle the orange fruit on the glue while twirling the twig with your fingers. Repeat with the remaining twigs.
