

# Awnings for the Shepherds Hut

Cat Winger

This awning is made from cardstock.  
You can cover it in fabric if you like.

The awning is 2" wide, you can adjust the size  
by cutting off some of the width or even  
adding some width. The sides (triangles)  
and drop do not change.

The awning can be plain or striped,  
you can paint the stripes to suit you.

The lining piece is cut from the same cardstock  
and is used to lend strength to the awning.
