

## Materials list for Spiral Staircase in 1/12<sup>th</sup> scale

### **Kit components**

2 Wood fans, important that the vanes have this pattern:-

10mm Round discs (one for each step)

6" Round disc – for base

1/8" dowel x 12" long

2 lengths - 1/2" x 1/16" basswood strips to make risers (I'll provide the cutting pattern)

1/4"sq Stripwood for newel posts (2 pieces 3" high) (optional, we can shape the plastic tubing for a more decorative end).

Decorative toothpicks (one for each step) for spindles (or you can use your own miniature spindles)

1/4" dia plastic waterline tubing (Abt 18" per staircase)

Small pieces of sponge for sponge painting (grout sponge works best).

**Attendees Provide these items**

Elmer's Glue (Not Student Glue) or Gorilla Wood Glue

Paints: Flat black, gold, metallic bronze, metallic gold

Mod Podge or other primer

Matt finish top coat

Paint brushes

Dremel with Drill bit or Pen Vise with 1/8" or 3/16" drill bit

Small wood clamps or alligator clips or clothes pins

Utility knife, with multiple new blades.

Small 90 degree square, or something that can be used as a square.

Sandpaper in multiple grits

Small length of 1/4" dowel to wrap sandpaper around

Template for risers:- Ensure each one prints at 3" wide each. You have a choice of using either riser style.
